Version History

Version	Date	Author	Changes
1.0	01 Jan 2026	Author A	Initial draft
2.0	15 Feb 2026	Author A	Added glossary
2.1	07 Mar 2026	Author A	Updated to PharmTeX style

TABLE OF CONTENTS

Glossary 5
1 Introduction 6
1.1 Sub-section 6
2 Methods 7
2.1 Sub-section 7
3 Results 8
3.1 Sub-section 8
4 Conclusions 9
4.1 Sub-section 9
4.1.1 Sub-section 9
4.1.1.1 Sub-section 9
4.1.1.1.1 Sub-section 9
4.1.1.1.1.1 Sub-section 9
5 Adding Lists 10
5.1 Adding a numbered list 10
5.2 Adding a bulleted list 10
6 Adding a figure 11
7 Adding an equation 12
7.1 Inline equation 12
7.2 Equation block 12
8 Adding a table 13
9 Adding a glossary term 14
Bibliography 15

LIST OF FIGURES

Figure 1 *Glaciers* form an important part of the earth's climate system. 11

LIST OF TABLES

Table 1 Volume formulas for geometric solids. 13

Glossary

***PK* – pharmacokinetics**: The study of how a drug is absorbed, distributed, metabolized, and excreted by the body. 14

1 Introduction

This is a basic example of **typesetting** with **Typst**. Check out this math formula:

$$v(t) = \lim_{t \to \infty} \int_t^\infty c \cdot \sqrt{t^2} \, \mathrm{d}t \tag{1}$$

1.1 Sub-section

2 Methods

2.1 Sub-section

3 Results

3.1 Sub-section

4 Conclusions

4.1 Sub-section

4.1.1 Sub-section

4.1.1.1 Sub-section

4.1.1.1.1 Sub-section

4.1.1.1.1.1 Sub-section

5 Adding Lists

5.1 Adding a numbered list

1. The climate
2. The topography
3. The geology
    1. sub-bullet
        1. sub-sub bullet

5.2 Adding a bulleted list

- The climate
- The topography
- The geology
    - sub-bullet
        - sub-sub bullet

6 Adding a figure

The caption (at the top) and the description (at the bottom) should be left-aligned and should span the width of the page.

Figure 1: *Glaciers* form an important part of the earth's climate system.

This is the figure description. It spans the full page width and provides additional context about the glaciers shown above.

A picture of melting glaciers is in Figure 1. This is also described in [1]

7 Adding an equation

7.1 Inline equation

The equation $Q = \rho A v + C$ defines the glacial flow rate.

7.2 Equation block

A block of equations to be added.

$$\begin{aligned} f(x) &= x^2 + 2x + 1 \\ &= (x+1)^2 \end{aligned} \tag{2}$$

As shown in Equation 2 (the reference to the equation block)…

8 Adding a table

The table caption (at the top) and the description (at the bottome) should be left-aligned and should span the width of the page.

Table 1: Volume formulas for geometric solids.

	Volume	**Parameters**
$\pi h \frac{D^2 - d^2}{4}$	h: height D: outer radius d: inner radius	$\frac{\sqrt{2}}{12} a^3$
a: edge length		

This is the table description. It provides additional context about the volume formulas listed above. This is also left-aligned and spans the width of the page.

9 Adding a glossary term

The pharmacokinetics (PK) are modeled using a 1-compartment model
